FOR OVER 30 YEARS...

Select Latin America was the founded by David Horwell who lived, travelled and worked in the Galápagos Islands as a naturalist guide when tourism was in its infancy. Afterwards he travelled across the vast continent of South America from its mountainous peaks, scorching deserts and steamy jungles all the way to Ushuaia, the most southerly town in the world.

When he arrived back in the UK he discovered that no other company was offering authentic bespoke tours to the region or escorted cruises on smaller vessels so he created Galápagos Adventure Tours offering unique wildlife tours to the mainland and archipelago.

Now nearly 30 years after the company was founded it's still run by David and a group of Latin America travel enthusiasts. From our headquarters in London we now have people on the ground throughout Latin America; we are constantly in touch before, during and after your trip to maintain the highest standards.

Our dedicated travel consultants are passionate about Latin America, well-travelled and can advise you on all aspects of your trip. You will benefit from our extensive travel experience, detailed local knowledge, and enthusiasm. We create truly bespoke journeys designed around your needs, wants and budget.

PLANNING YOUR TRIP

The process of how to plan a trip varies depending on your circumstances but below outlines the way we prefer to work with you to create your perfect journey.

1 GET INSPIRED & SPEAK TO US

Get inspired from this brochure or jump onto our website for everything you need to know about Latin America. Give us a call to speak to one of our destination specialists. They can give you help and advice even if you are only in the tentative stages of planning your holiday.

2 COMPLETE A TRIP PLANNING QUESTIONNAIRE

When you're ready to start planning your holiday we'll provide you with a short Trip Planning Questionnaire which takes just a few minutes to complete and gives us all the details we need to start planning the perfect holiday for you. Of course, if you don't have the time, we'll work with the details you've already given us.

3 ITINERARY & QUOTATION

After receiving your Trip Planning Questionnaire the real magic begins. We'll brainstorm ideas within the office, get the maps out and start carefully piecing together your tailor-made holiday exactly to your specifications. We'll then provide you with a full colour itinerary and quotation to review.

4 REFINEMENTS

Once we've got your feedback we'll refine the trip further to exactly match your idea of your dream holiday. Although rare, if we've got it all wrong, we'll go back to the drawing board and start again. Once you're completely happy we'll confirm every component of the booking and take your deposit.

5 FINAL STAGES

It doesn't stop there. We'll always be at the end of the phone for any questions you may have about your trip. Your final payment will be due 65 days prior to departure at which point we will send you a beautiful printed and bound copy of your bespoke itinerary with lots more detailed information and contact details to take with you. Our ground operation teams will be briefed on the finer details of your holiday and we will be in touch before, during and after to make sure everything runs smoothly.

RESPONSIBLE TRAVEL

We have been creating memorable travel experiences for almost 30 years. It makes absolute sense that we look after the places we visit, not only for the future of our business and clients, but for the people and places that make Latin America such an incredible part of the world. Put simply, responsible travel is something we take very seriously.

PARTNER AIRLINES

We work with some fantastic airlines offering an extensive flight network to destinations in Latin America and departing from many parts of the UK and abroad. Here are just a few of the airlines we work with on a regular basis.

ECONOMIC RESPONSIBILITY

We have worked alongside and contributed to organisations that make great differences to communities and conservation all over South and Central America. We have been members of LATA (Latin America Travel Association) for over 20 years, actively participating in as part of the executive committee and supporting their LATA Foundation which supports social projects throughout the region. These projects are helping to transform lives, providing clean water, dental or medical support and practical training to provide people with new skills in Mexico, Central and South America.

ENVIRONMENTAL RESPONSIBILITY

Since the company began as the first Galápagos specialist, concern for the environment has been core to what we do. Our founder, David Horwell, worked as a naturalist guide in the

Galápagos and is author of books about this fragile environment. He therefore understands the complexity of conservation and tourism on the archipelago. We only work with boats who use local guides and crew which in turn supports the community of islanders. We recommend vessels which have strict policies on social & environmental responsibility, locally owned and operated and are actively reducing carbon emissions and where possible, preferably have Smart Voyager certification.

We are proud to have been one of the first corporate members of the Galápagos Conservation Trust, a UK charity who work tirelessly to raise awareness and funds for the conservation of this fragile ecosystem. We have sponsored their events, helped with logistics for their team, contributed financially and donated memberships to our customers. Throughout Latin America we promote the sustainable

use by hotels and lodges and where possible choose those that have been verified by Rainforest Alliance.

SOCIAL RESPONSIBILITY
Where possible we work with locals. We pick our guides carefully and we think that someone who's born and bred in the area is better equipped to impart local knowledge and give you an authentic experience. It also ensures less migration to larger cities allowing small areas to prosper economically. Whilst we encourage you to experience the culture and local life in these countries it is important that tribal people and indigenous communities are respected. Many of these welcome tourists and get a modest income by selling handicrafts or even run their own lodges. In certain Amazon areas tourism is the only alternative to logging or oil exploitation. We support the work of Survival International in raising awareness of the plight of threatened communities. All of our trekking outfitters have a responsible porter policy which we check annually.
